

Our apartment complex has failed to provide us with phone service for over a week. They have continuously told us that it will be the next day and it never is. They have also failed to keep any tenants posted on what is going on with the phone service. There is no way for anyone to call out or in. This means we can not call 911 in case of an emergency. I feel the complaints have not been addressed by Wolfcreek and nor have they been able to provide their tenants with adequate phone service.
